

# Data Science Consultant (GenAI)

## New York, On-Site, Full-Time

At Unique, we leverage generative AI to transform the financial services industry. Our mission is to revolutionize the financial sector by enhancing efficiency and driving growth. Our LLM-agnostic platform offers ready-to-use financial agents for wealth management, investment banking, and private equity. Unique is a market leader in providing generative AI solutions for financial institutions serving over 40 clients globally.

We're looking for a Data Science Consultant who combines technical expertise with customer-facing skills to provide top-notch AI solutions to our financial service clients. Your role will involve engaging regularly with our customers to understand their unique needs, demonstrate Unique FinanceGPT's capabilities, and adapt AI models to specific use cases through advanced prompt engineering.

We encourage all genders and all neurodiversities to apply.

### What you need to succeed

- 8+ years of experience as a technical consultant in the financial service or consulting industry
- Master in Computer science, Mathematics, Engineering, Statistics, or a related field
- Proficiency in Python and other applicable programming languages
- Hands-on experience with LLMs and Advanced Prompt Engineering, including the ability to adapt system messages for various applications
- History of successfully delivering projects for clients, from the initial discussion phase through to execution and assessment
- Exceptional communication, documentation, project management and presentation skills and stakeholder management experiences
- Open to work on-site at the client's location for 3 days per week

### What we offer / Benefits

- **Competitive salary**
- **Additional guaranteed vacation** 🌴 Enjoy our standout 25-day vacation policy, a rare benefit in the US job market. Unlike other companies, we guarantee that every employee in the company takes full advantage of this time off
- **Innovative Work Environment** 🚀 Engage in groundbreaking projects within the Generative AI space

- **Continuous Learning**  Continuously learn and adapt to new technologies and methodologies as you work on varied client projects
- **Leading Company**  A chance to be part of a leading company in a rapidly evolving industry
- **Culture**  A modern company with flat hierarchies that focuses on a people-oriented culture and places great emphasis on transparency and open communication
- **Travel Opportunities**  Experience travel across Switzerland, London and Singapore working directly with diverse clients
