

UNIQUE

Software Integration Engineer

based in Zurich

We are looking for a highly skilled and self-motivated Integration Engineer to join our dynamic team. As a Data Integration Specialist, you play a crucial role in ensuring the smooth flow of data across our organization by designing, implementing and managing connectors to external systems and internal data sources and optimizing data transfer processes to improve efficiency. You will also develop and maintain integration solutions that meet industry standards and regulatory requirements, working closely with the compliance teams.

What you need to succeed:

- Located and work-permitted within Switzerland
- Proven experience in data integration, particularly with designing and implementing connectors to external systems
- Strong expertise in managing data flows and ensuring data quality and consistency
- Experience in Node.js and Typescript
- Good problem-solving skills and ability to troubleshoot and resolve complex integration issues in a timely manner
- Curiosity and interest in new technologies and trends in data integration to drive innovation and improve existing processes
- Strong communication skills to collaborate effectively with cross-functional teams and convey technical concepts to non-technical stakeholders
- Fluent in English; proficiency in French or German is a plus

What we offer:

- The opportunity to work on innovative projects in the Generative AI space
- A chance to be part of a leading company in a rapidly evolving industry
- A modern company with flat hierarchies that focuses on a people-oriented culture
- A remote work environment that values independence and creativity
- Great colleagues
- Emphasis on transparency and open communication
- Employee ownership, strong salaries and possibility to invest in the company

Who We Are

We at Unique build a highly secure generative AI platform called Unique FinanceGPT, tailored for the financial sector. Utilizing GPT technology, we aim to revolutionize how enterprises manage their workload by offering automated solutions. Our mission is to simplify and optimize business interactions, negotiations, and partnerships in the finance sector.

How To Apply
