

# Solutions Engineer, 80-100%

France /Paris (Hybrid)

We are seeking a skilled Solution Engineer with excellent communication skills who enjoys collaborating with and on customer premises. In this role, you will be responsible for installing and configuring Unique's products at customers sites to ensure seamless integration with existing systems, as well as assessing customer infrastructure and designing tailored solutions for the effective deployment of our engineering artefacts. You will collaborate closely with our engineering teams to comprehend product specifications and deployment requirements, design customized solutions, and develop automated deployment processes to enhance efficiency and customer satisfaction.

This position requires you to live in Paris/France and to have a valid work permit. Travel activity to customers varies and can be up to 100% of working days on-site at the customer's location.

## What you need to succeed

- **Education and Experience:** Bachelor's degree in computer science, Information Technology, or a related field, with 3+ years of technical experience in software engineering, network engineering, service engineering, or systems engineering; or equivalent experience
- **Technical Skills:** Strong expertise in automation and scripting to facilitate efficient deployments. Familiarity with cloud infrastructure, particularly Azure, and containerization technologies such as Kubernetes
- **Security and Compliance:** Proficient in security frameworks, compliance standards, and risk management
- **Industry Knowledge:** Experience in the financial services sector and an understanding of regulatory compliance is a plus
- **Language:** Fluent in English and French

## What we offer

- **Innovative Projects** 🚀 Engage in groundbreaking projects within the Generative AI space
- **Continuous Learning** 🔄 Continuously learn and adapt to new technologies and methodologies as you work on varied customer projects
- **Leading Company** 💪 A chance to be part of a leading company in a rapidly evolving industry
- **Culture** 🌱 A modern company that focuses on a people-oriented culture and places great emphasis on transparency and open communication

## **Who we are**

We at Unique build a highly secure generative AI platform called Unique FinanceGPT, tailored for the financial sector. Utilizing GPT technology, we aim to revolutionize how enterprises manage their workload by offering automated solutions. Our mission is to simplify and optimize business interactions, negotiations, and partnerships in the finance sector.
